

CRJ105 – Week 10 Scenario

The State of Our Community

Slide #	Slide Title	Dialogue
01	Introduction	No dialogue
02	Public Order Crimes	<p><u>Sergeant's Office</u></p> <p>Sergeant: Here we are at the end of your internship. We've enjoyed having you at the agency and introducing you to the law enforcement profession. Throughout your internship, you've been exposed to a number of incidents and you've heard a lot of statements and stories from suspects in crimes. With all that you've experienced, it's time to give an honest assessment of our area.</p> <p>Over the last several weeks, you've seen all types of crimes in our area. But there are also other types of crimes that take place as well. We have a big drug problem in our jurisdiction; both selling and using them. There's also a lot of prostitution, especially in the downtown area. These are called Public Order Crimes and they make any area less desirable. With all of these crimes in our jurisdiction, we are looking to formulate new ways to eliminate these types of apparent crimes, along with reducing the crimes that continually take place, such as assaults, robberies, and other crimes you've witnessed over the last several weeks. How do you think these Public Order Crimes affect the other crimes that have taken place?</p>
